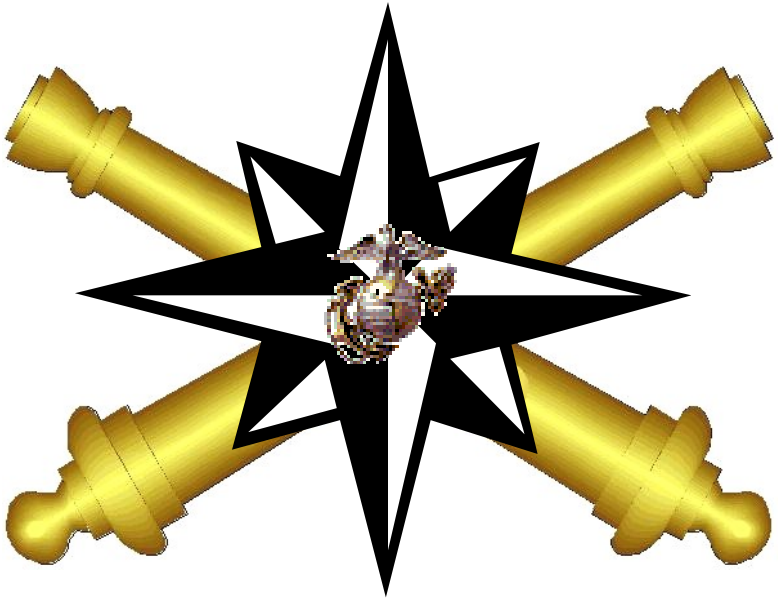
UNITED STATES MARINE CORPS SYTEMS COMMAND

Fire Support Systems Program Conference



Fire Support Systems

Targeting Team Programs

Camp Lejeune

5 – 6 May 2004

Targeting Systems Breakout Agenda

- Day 1 Discussions
  - Fielding and Training Plans for CLRF
  - Fielding and Training Plans for GLTD II
  - Maintenance Concepts
- Day 2
  - Nominal Group Technique
    - What are the critical capabilities required for tactical targeting?

Issues

- Fielding and Training Plans for CLRF
  - Inclusion of maintainer training into planning
  - Address additional systems required for maintainer training
- Fielding and Training Plan for GLTD II
  - Train the operating forces as rapidly as possible with systems to follow to later
- Maintenance Concepts
  - Must have spares to support “washouts” and reduced repair cycle time

What is the critical capability required for tactical targeting?
